

CITEL

DVM-277-16A

- Protection against permanent/temporary overvoltages of AC network
- For 277 Vac AC single-phase powerline
- Load current: up to 16 A
- Automatic operation: disconnection/reconnection
- Operating indicator
- installation on DIN rail

Características eléctricas		
Red		277 V monofásica
PROTECTS AGAINST PERMANENT AND TEMPORARY OVERVOLTAGES		YES
TENSION	(V)	277
FASE	(PH)	1
MAX LOAD CURRENT	A	16
Características mecánicas		
Tiempo mínimo de desconexión de la red de AC		3s @ 320 Vac / 1s @ 336 Vac / 0.25s @ 368 Vac / 0.07 @ 400 Vac
Conexión a la red		Por terminales de tornillos : 1.5-10 mm ²
Temperatura de operación	Tu	-40/+85°C
Clase de protección		IP20
FORMA DE CONEXION		By screw terminals: 1.5-10mm ²
MIN DISCONNECTION TIME DURING AC OVERVOLTAGE		3s @330VAC/1s @344VAC/0.25s @372VAC/0.07s @400VAC
MONTAJE		DIN RAIL
DIMENSIONS		See diagram (mm)
Código		
358913
